Originally published in June 2006 issue—publishing it again due to questions we are constantly receiving from students/clients.

In this issue I'm called to respond to another issue that is constantly appearing in my discussions with clients and students. It is yet another issue with which I spent many years being intimately familiar.

The issue is FEAR and the ENERGY of YOUR THOUGHTS.

First let me say that FEAR is **False Evidence Appearing Real**.

Yes, you read that correctly—FEAR is based upon our conception of what MIGHT happen and is a complete and total waste of time.

What MIGHT happen according to your FEAR just as easily MIGHT happen another way entirely or NOT HAPPEN at all.

More importantly, your THOUGHTS ARE ENERGY and when you worry and indulge in fear you are calling to you exactly what you are worried about and/or afraid of.

Quantum physics—yes, SCIENCE in it's purest form - has found/proved that EVERYTHING is energy. Although we appear to be solid and the desk at which you are sitting and the computer sitting in front of you

appear to be solid—ALL of these are in fact simply energy—molecules and atoms and quarks, etc. which are moving around at a particular vibrational level even though they appear to be solid.

If you were to match your vibrational level EXACTLY to a wall or a desk they wouldn't be solid and you could, in fact, simply walk/move through them.

Think about this for a minute. We turn on our radio while driving down the street and out comes our choice in music or talk. We turn on the television and out comes sound and pictures.

HOWEVER, we never think about the fact that radio and television are simply waves of energy which float through the air all around us and without the proper receiver tuned to the proper vibrational frequency (a radio or television) the "signals" are just energy floating around in the cosmos.

The point here is that radio and television signals/waves penetrate walls and roofs and car bodies, etc. and we never ever give a thought to the fact that they "go through"

things which appear to us to be solid.

Ok, you say—how does this have anything to do with fear and worry.

Because, our very thoughts are pure energy. Just as is everything else in this world.

So.....when you are worrying about where the money for next month's rent is going to come from and/or how you'll have the money to feed your family, in most cases your thoughts are doing something like this "oh where, oh where am I going to get the money to pay my rent. I don't have the money and I'm scared and there just isn't enough money to go around".

And what do you get by this type of thinking—not enough money and most certainly not enough to go around—**BECAUSE you called exactly what you feared and were worried about to you.**

If instead you thought something more like this—"I know that the world is an abundant place and that everything I need will appear to me with no

FEAR & THOUGHT ENERGY CONTINUED

problem” - THEN you would receive just that.

PRACTICE an attitude of gratitude!

When is the last time you spent money and blessed the dollar bill and the person to whom you were giving it with love and abundance?

When is the last time you truly realized that your fears are nothing but an excuse to keep you in the safety of where you are RIGHT NOW

and allow you to not take personal responsibility?

When is the last time that you went into meditation on the fact that the World is a place of infinite abundance with plenty to go around for everyone?

But.....you say “I’ve never had enough (food,money, love) and it’s not my fault.

I say to you that it IS your

fault because you bought into a paradigm that said that there wasn’t enough—especially for you.

What if instead you had bought into a paradigm that said that there was enough, more than enough for EVERYONE?

THINK ABOUT THIS! TRY IT FOR 30 DAYS and SEE IF YOUR LIFE DOESN'T CHANGE!

WE ARE CHANGING

It’s been over 10 years of doing this work full time - beginning with a small healing center and being pulled kicking and screaming into the teaching arena (I just wanted to have a small anonymous healing center where people would come and feel better).

Meanwhile our world has changed dramatically—via the internet we are now able to communicate and be “friends” with people from all over the world.

And as I was called more to more to have an internet presence, the business transitioned into an entirely internet way of sharing with others.

First, however, it was necessary for us to develop courses which weren’t simply “buy and get certified” but which did, in fact, assist each student in development of their knowledge and skill-set.

Then, because this made a significantly larger volume of work—two individuals, both of whom are long time students—stepped up to assist with emails, scheduling, etc. so that I, Rev. Wendi, can more thoroughly be involved in the attunements

and Case Study correspondence as well as doing the “on the Water” work that I do to keep bills paid. Thanks Tena & Bev.

It is now time to change more and move further forward in the digital age.

So.....throughout the next few months, we are first of all converting & upgrading each and every one of the courses which Rev. Wendi has authored.

Beginning with the “Intuition, Conscious Channeling & Meeting Your Guides” course as well as the “12 week Shamanism Immersion Course” - we are converting courses to an entirely digital format—both eBook &

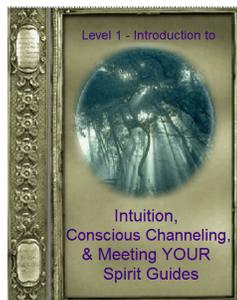

series of documents—which are delivered in a more professional manner.

Additionally, Rev. Wendi is recording a minimum of one lecture per chapter for each of the courses and that lecture will be incorporated into the material within each chapter.

This will enable us to more closely follow the way she taught when these courses were first presented in the “live/in person” format.

She is also adding significant content to each course as we upgrade them as it has been some time since the courses were written. They were developed after teaching them each as a “live/in person” course and now that we’ve taught with them for Home Study, we find that new content and changes will enable us to offer a better all around experience.

Additionally, the Case Studies/Feedback, etc. are incorporated within the timeline of the course in the manual so that students will no longer have to deal with more than one manual or with switching back and forth

Flash formats—which will enable us to incorporate the course into one document or

Instead of worrying about where you are going to “come up” with the money to purchase whatever is important to you—how about you THINK and DWELL upon the fact that the WORLD is a PLACE OF GREAT ABUNDANCE with plenty to go around for ALL and that whatever you need is on it’s way to you as you think of it!

between multiple manuals.

Not only does the new format allow us a much more pleasing and professional presentation but more importantly, it allow YOU—our students—a much more robust and pleasant experience.

Look for each course to be offered at Special Pricing just before the new versions are published.

Among courses slated for the conversion (not in order) are: ‘AKA Healing, HUNA, Angelic Empowerments, Kahi Loa, FULL Usui Reiki (4 levels), remaining Shamanism Courses, and much, much more.

This is only the beginning of the Changes we are making before Spring 2011.

NEW COURSES

Among many other new courses which we'll be offering over the next few months are the following which are highlighted both here and on the website.

One of them is available to ALL who are interested and the other is available only to those who, after a personal interview, are at the energy & self growth level in their lives which will be beneficial to ALL participants in the class.

CELTIC TURN OF THE YEAR SHAMANIC/PATHWORKING

This course is one of the most intense courses we offer in that it requires a 1 year commitment from participants and also because it requires self-responsibility and introspection into ones own issues.

It is also one of the

most fun classes which we offer due to the nature of the Celtic Pathworking that takes place during the course.

All participants will pathwork Celtic stories/legends and in doing so will BE that story.

There are additional bonus pathworking meditations and live conferences throughout the year as well as an opportunity for all participants to engage in a message board to allow even more self-growth as well as discussion among participants. Open to all!

REMOTE SEMINARS WITH REV WENDI

Many who take our courses work in a therapeutic situation or have plans to do so.

Many students have

the same or similar questions and/or are facing many of the same or similar issues.

In an effort to more closely assist those who are interested Rev. Wendi will be offering LIVE conference call seminars discussing aspects of vibrational energy bodywork and metaphysics in general.

These seminars are participant driven with questions submitted before each seminar and opportunity for questions during the seminars.

Beginning around the first of November 2010 and continuing every 2 weeks plans are for a minimum of 6 sessions with breaks during the holidays. All seminars will be recorded for the continued use of all participants.

ARE YOU INTERESTED?

We are considering holding a week long "live/in person" series of workshops in early Spring of 2011.

Among the workshops would be a 1 to 2 day long intensive - Soul Retrievals—which will require the Shamanic Immersion program as a pre-requisite.

Other thoughts regarding 1 day workshops areKahi Loa, Reiki/Reiju workshop, HUNA 1 day Intro, and many others.

There is consideration of advanced Reiki courses—Sekhem, Gendai, SSR in a 2 day course.

Additionally, we will offer some times for personal appts.—coaching, readings or energy bodywork sessions—with Rev. Wendi.

Workshops would be held on the Texas Gulf Coast and we'll build in time for some local adventures, too.

There is a massive amount of work that goes

into live workshops and before we consider doing it we need input from our students.

If you are interested in this series of Workshops, if you have specific workshops you would like to attend or you have any constructive input, please let us know at the following page

<http://spiritsofnativelight.com/Spring2011.asp>

In response to request for LIVE courses and session Rev. Wendi is considering a conference in Spring 2011. Please do the survey so we can determine interest.

CHILD STAR REPORT

This 35+ page report provides an in-depth astrological profile for children.

Wouldn't it be nice if at every new birth the parents were given a manual on exactly how to raise their new child to be a healthy, happy, fulfilled human being?

Child*Star may not produce a manual, but it is certainly the next best thing.

This unique natal report can assist a parent to instantly recognize and attune to a child's strengths, aptitudes & potential. It recognizes challenges the child and parent may face as they grow and develop. It provides suggestions on how to recognize and redirect potentially negative tendencies, often show-

ing how to turn them to the child's advantage. These clues are essential keys to guiding parents and caregivers in providing the right environment, stimulation and corrective measures to help a child realize their full potential – physically, mentally, emotionally, and even spiritually.

Throughout each report Child*Star also explores the special individual relationships that evolve between the child and mother and the child and father. This information can help each parent fulfill their essential role in their child's healthy emotional development. This is insight that can enhance a sense of bonding with each parent that will be important to a child throughout their lives.

Giving our children every

opportunity to realize their full potential is the goal of any good parent, or anyone with the responsibility for a child's well being. Exactly what we should do to nurture each child properly and provide the stimulus that will help them to achieve their maximum potential will vary from child to child. Every child and every parent should have the advantage of a Child*Star report.

What a birth-day gift for everyone involved.

Our PERSONAL CHILD*STAR REPORTS (35+ pages) are professionally done and include an extensive narrative/interpretation of particular influences of planets, signs in houses, etc. and changes, challenges & opportunities which are specific to the child/children for which these reports are done.
